FABRICATION & SHIPPING

We fabricate 95% of our signage in-house to ensure Creative Sign quality and timeline standards. We can ship and crate signs - big and small - with the professionalism and care you'll come to expect from Creative Sign. Our craftsmanship does not waiver, be it a 50-foot pylon sign or small room ID signs.

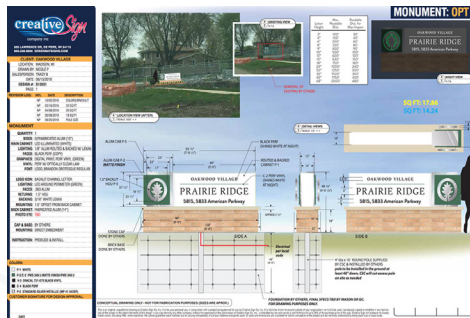

INSTALLATION & SERVICE

Our highly experienced and personable install crew will install your signs with care, leaving the site clean and tidy. Rest assured that your signs will be installed securely while using safe and efficient installation practices. All ADA signage will be professionally installed according to ADA rules and regulations.

MAJOR PROJECTS

OAKWOOD VILLAGE

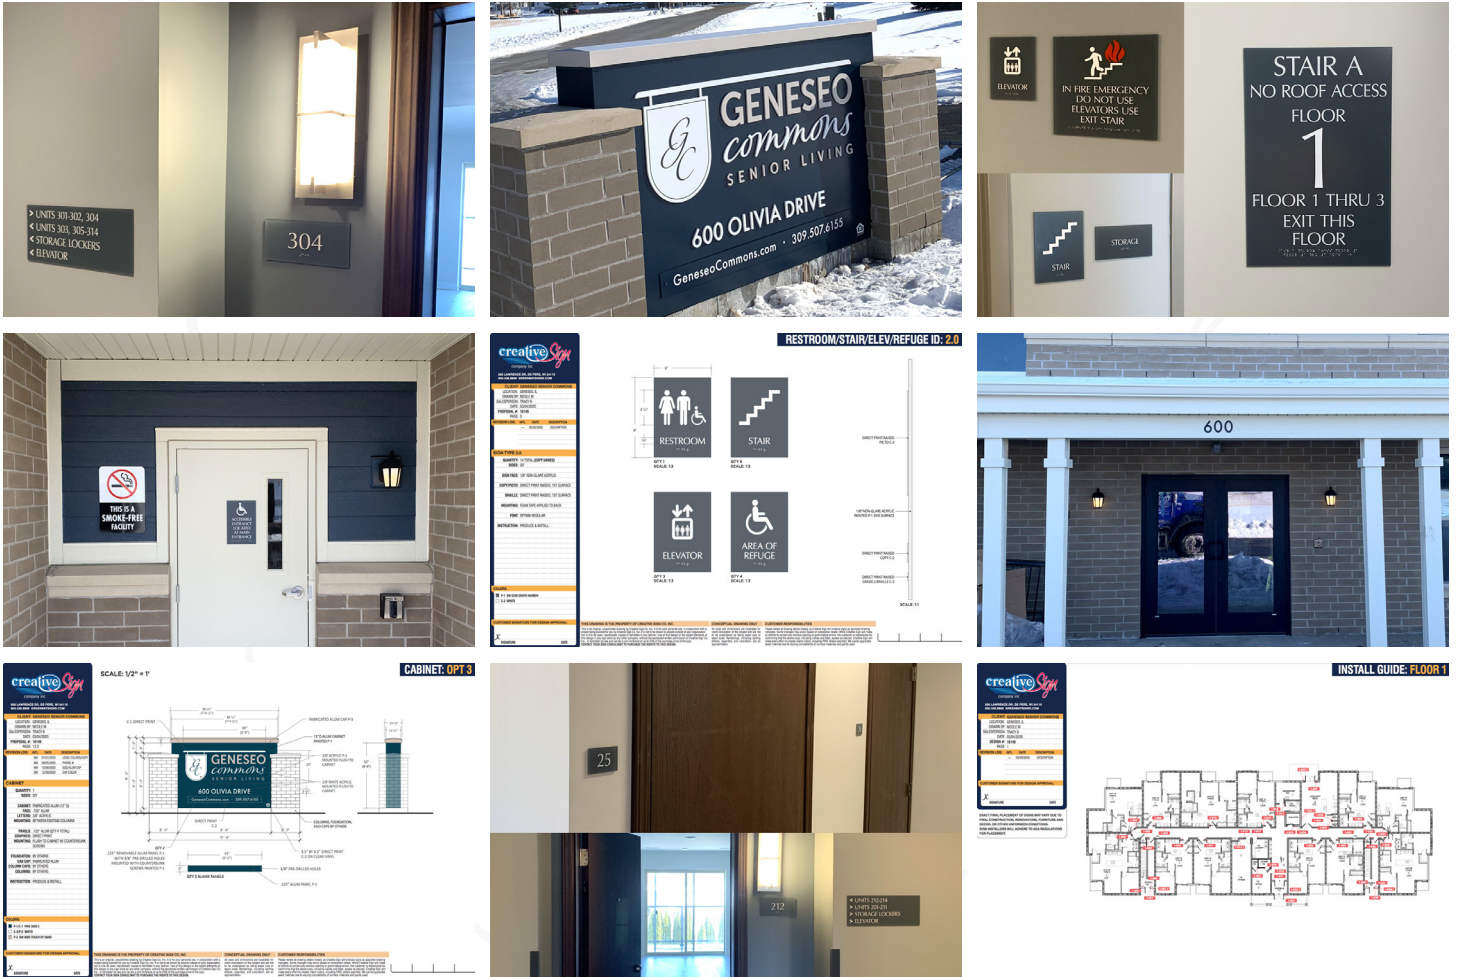

Creative Sign worked in several phases to design, produce, and install interior and exterior signage for this new multi-building senior living facility, releasing each phase as the buildings were completed. It was important to this customer that their signage colors and design be cohesive inside and out. Interior and exterior individual letters are consistent in font and color, and the logo is incorporated throughout all wayfinding and ADA compliant signage. This helps residents and visitors navigate the Oakwood Village property and to quickly identify it as Oakwood Village. The designer chose to backlight the logo with green LED on the monument signs, so that the green color was even incorporated at night.

Creative Sign also assisted Oakwood Village in working with the city of Madison for a variance to obtain a third monument sign in order to increase the size of each monument, so the signs would be readable from the street and functional for the complex.

Creative Sign provided concept drawings, sign schedules, and installation guides for each phase of this project, making recommendations along the way to ensure all signage goals were met, namely ADA compliance, durability, functionality, readability, and consistency of branding.

MAJOR PROJECTS

GENESEO COMMONS SENIOR LIVING

The professionals at Creative Sign assisted this senior living community to get classic, ADA compliant signage inside and out. A non-lit monument sign and address numbers help residents and visitors easily navigate the buildings, and the exterior grade ADA signs will stand the test of time.

Inside, matching wayfinding signs and room identification signs are ADA compliant and coordinate with the colors and style of the building.

Creative Sign produced sign drawings, sign schedules, and install guides to guarantee all proper ADA signs were produced and installed correctly.
