FABRICATION & SHIPPING

We fabricate 95% of our signage in-house to ensure Creative Sign quality and timeline standards. We can ship and crate signs - big and small - with the professionalism and care you'll come to expect from Creative Sign. Our craftsmanship does not waiver, be it a 50-foot pylon sign or small room ID signs.

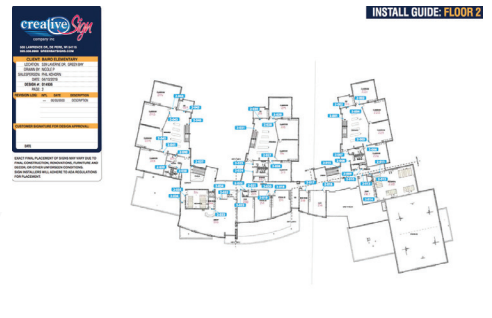

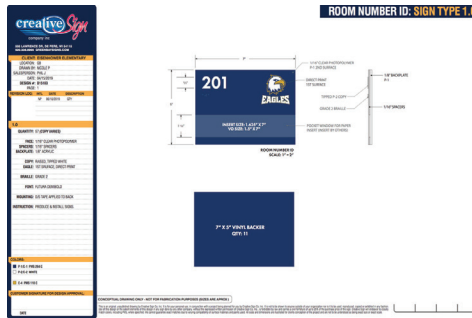

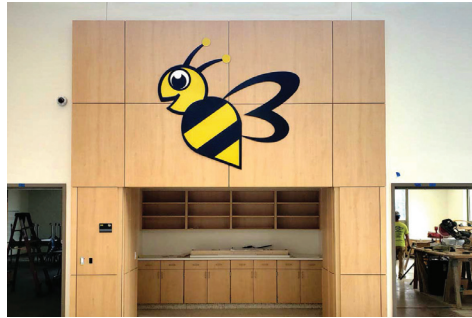

INSTALLATION & SERVICE

Our highly experienced and personable install crew will install your signs with care, leaving the site clean and tidy. Rest assured that your signs will be installed securely while using safe and efficient installation practices. All ADA signage will be professionally installed according to ADA rules and regulations.

MAJOR PROJECTS

GREEN BAY SCHOOL DISTRICT

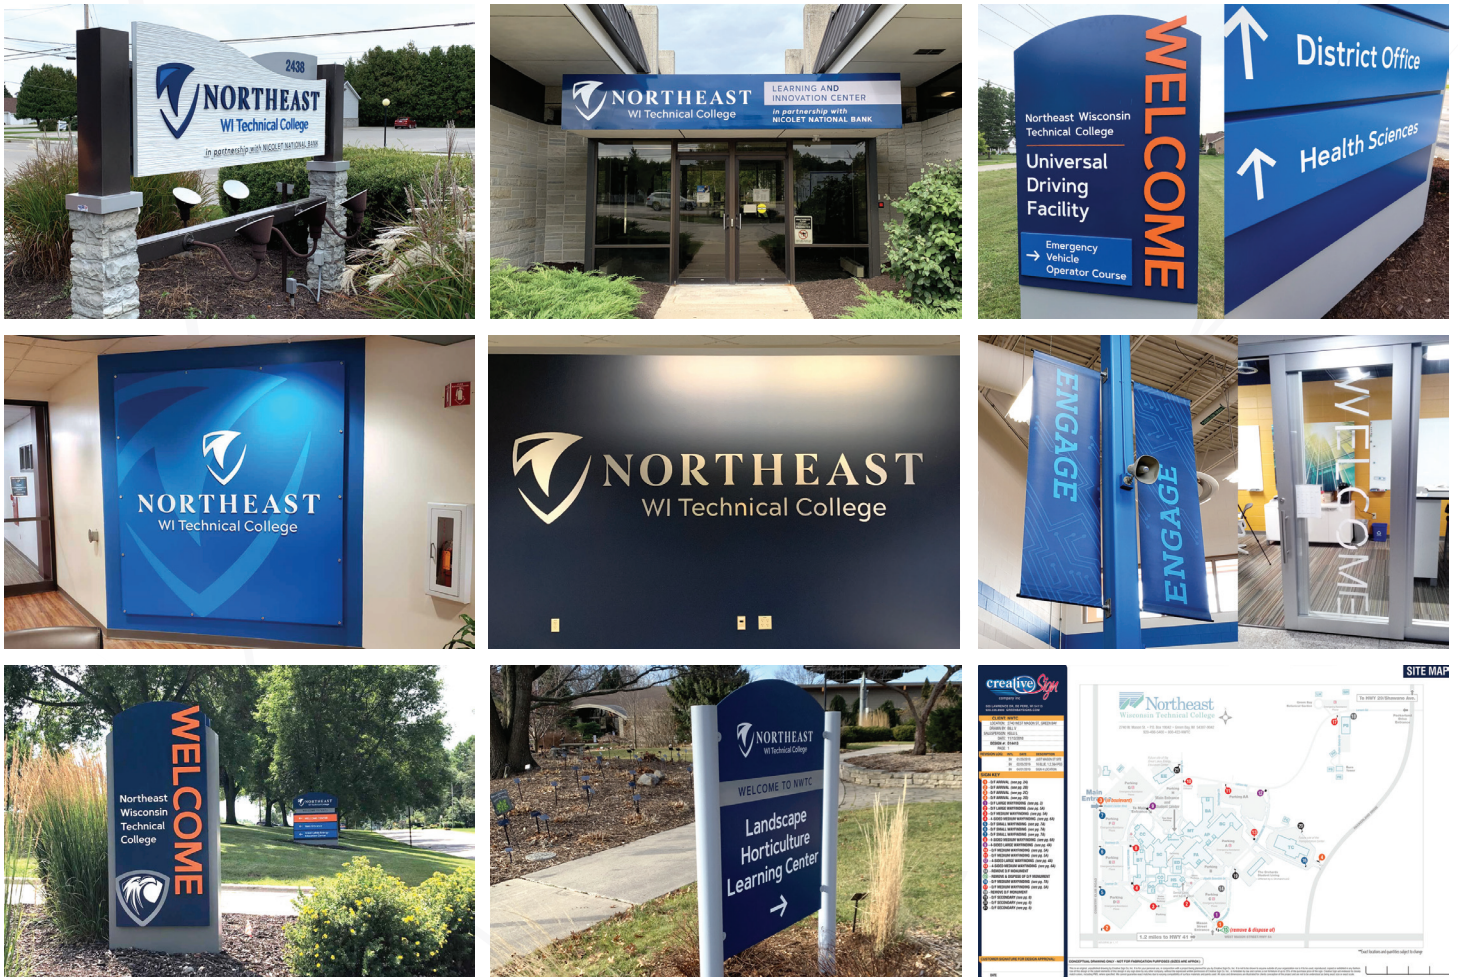

Creative Sign's sign experts assisted the Green Bay Area Public School District to update exterior and interior signage for many of their schools throughout the district. This included designing, producing, and installing multiple new monument signs. The illuminated monument signs, with creative drawings from our talented design team, featured bases of faux brick or stone to match that particular building, as well as Watchfire electronic message centers to communicate school events, important messages, and accomplishments.

Like the exterior signs, the durable interior ADA and wayfinding signs are also tailor-made for that particular school, displaying the school's colors and logo with pride. The room ID signs are ADA compliant and can accommodate paper inserts to denote the room or teacher name. Our professional install team mounted these signs to many different surfaces, including brick, wood paneling, tile, and glass.

For each project, our talented design team created detailed sign drawings and complete install guides and sign schedules to ensure proper signage and install throughout the school building.

MAJOR PROJECTS

NORTHEAST WISCONSIN TECHNICAL COLLEGE

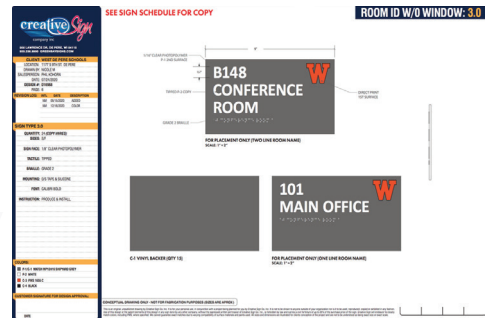

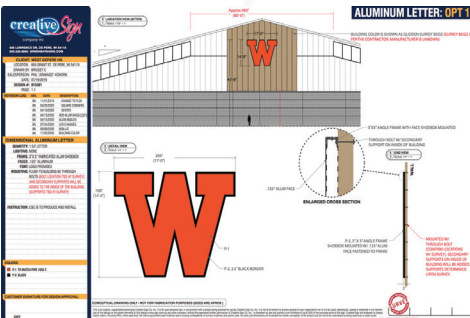

Over the years, Creative Sign has designed, produced, and installed a variety of signage for multiple NWTC locations. Our sign consultant assists the college with this interior and exterior signage, which has included building ID letters and panels, easily read and easily changeable directional and wayfinding signage, elegant brushed silvers interior logos, banners, and a variety of wall, window, and door graphics, some of which were designed by the NWTC graphic design department and guided to the best sizes and materials by Creative Sign's design team.

The technical college's recent rebrand gave Creative Sign an opportunity to update or replace outdated signage with new, quality signs, ensuring that colors and materials remain brand-consistent throughout the large campuses and various forms of signage.

Thorough site maps helped confirm the best navigation for the campus and aided our sign installers in accurate placement of each directional.

MAJOR PROJECTS

WEST DE PERE SCHOOL DISTRICT

The West De Pere School District loves to display their school pride by featuring their bright orange W in special ways throughout their school signage. Be it large and loud on their building or glowing and 3-sided on their high school monument, Creative Sign loves playing with size, lighting effects, materials, and dimension to make the West De Pere W stand out.

The long list of signage Creative Sign has designed, produced, and installed for the district includes scoreboards, monuments with Watchfire electronic message centers to broadcast school events and community information, building letters, directional signs, trailer graphics, signicades, banners, decals, ADA compliant signage, and so much more!
